

Paint Your House

It is not always economy to buy the cheapest, especially is this true with paint. You can buy an adulterated oil for 10c per gal. less then

Crown Linseed Oil,

and you can buy a cheap paint for 15c per gal. less than **MOUND CITY PAINT**. But when your house needs painting again in two year instead of 4 or 5 years, what have you gained? If you are interested come in and let us talk to you about a **PURE PAINT**.

BALL TEAM RETURNS FROM LA. TRIP

Play Three Games With Tulane and Two With L. S. U.—Exceptionally Fine Ball Is Played in All Games.

From the Battalion:

The baseball squad composed of thirteen players and Coach Moran returned Thursday morning from their Louisiana trip. Although the boys won but two out of the five games, they played better ball in each of these games than they have ever played on the home diamond. Henderson, who had been kept out of most of the games in the beginning of the season on account of his shoulder, was permitted to play. He starred in every game, and especially in the first as he was credited with all the runs made by the Texas team. He played an almost errorless game on the trip, and used good head work in tight places.

"Chooter" Pucket, the big long second baseman, played exceptionally well in all the games, and the opposing teams thought him to be a professional. Every member of the team deserves much credit for the playing done on this trip, but there is especial credit due to the famous southpaw, "Rube" Whippley. In the first game Rube relieved Arneson, and for the remaining four innings of that game, the opposing team failed to get a hit. He showed up so well that Coach Moran put him in the box in the third game against Tulane. It was here that Rube showed what stuff he really had in him. He kept cool during the entire game, and if it had not been for the passed ball by "Dutch" the opposing team would not have scored. The team hates to return partly defeated, but in a case of this kind there is much consolation. The umpires at the Tulane games were students of that college and they seemed determined that their team should win at any cost. The two last games were won merely by the umpires' bad decisions. The decisions were so rotten that even the captain of the Tulane team remarked that their winning was only due to the umpires, and that the Texas boys should not think hard of the students in general as it was merely the individual fault of the umpire.

The first game with Tulane ended with a score of 3 to 4 in their favor. Arneson and Whippley did the pitching, while "Fatty" Thompson was behind the bat. "Fatty" caught a very fine game, and showed what kind of catcher the little town of Pearsall put out. There was fast playing done by both teams, but the main feature of the game was the splendid fielding and excellent hitting by Henderson.

The second game seemed to be a little more closely contested than the first. Moore pitched a real good game and would have won had it not been for the hard decisions he received during the critical parts of the game. Henderson and Pucket and Simmons did excellent playing in this game. Henderson's fielding and hitting being superb, Pucket's fielding being exceptionally fine, as he robbed the opposing team out of what would have been two clean hits, and Simmons' hitting and base running startled the fans. This young fish who is only 17 years old has a remarkable future before him. He is a gentleman in every sense of the word and a student that will do any institution credit.

In the last inning the score stood three to four in their favor. Simmons was on third and two men were down. The catcher let the ball go by, and Simmons speeded in for home. The catcher attempted to tag him but failed. However, the umpire, and the chances for victory on the part of the A. and M. College of Texas were no more.

The features of the third day's game were the pitching of Rube Whippley, and the excellent fielding on first by the big farmer, Otto. Regardless of the fact that there was no telephone post at first, Otto played the best game that he has ever played. Texas scored twice, but the decision of the umpire caused both runs to be of no value.

Sunday afternoon the boys went to see a game between Montgomery and New Orleans. They could not stay to see the finish of the game as the train for Baton Rouge left before the game was over.

The first game with L. S. U. was a hard-fought game, but ended in a victory for Texas due mainly to the pitching of Moore. The last three games which Scott had pitched Texas had lost. He now determined that Texas should win, and as he walked out upon the field one could well see the resolution written upon his brows and lips, and could see nothing but destruction for L. S. U. Scott struck out thirteen men and allowed but one hit.

The second game was left for Arneson, who prepared himself to pitch a good game. He struck out ten men and allowed but two hits. He knocked a two-bagger in the third inning which scored a runner. He kept a

The public cordially invited to call and inspect our Plant and splendid facilities.

him. He is a gentleman in every sense of the word and a student that will do any institution credit.

In the last inning the score stood three to four in their favor. Simmons was on third and two men were down. The catcher let the ball go by, and Simmons speeded in for home. The catcher attempted to tag him but failed. However, the umpire, and the chances for victory on the part of the A. and M. College of Texas were no more.

The features of the third day's game were the pitching of Rube Whippley, and the excellent fielding on first by the big farmer, Otto. Regardless of the fact that there was no telephone post at first, Otto played the best game that he has ever played. Texas scored twice, but the decision of the umpire caused both runs to be of no value.

Sunday afternoon the boys went to see a game between Montgomery and New Orleans. They could not stay to see the finish of the game as the train for Baton Rouge left before the game was over.

The first game with L. S. U. was a hard-fought game, but ended in a victory for Texas due mainly to the pitching of Moore. The last three games which Scott had pitched Texas had lost. He now determined that Texas should win, and as he walked out upon the field one could well see the resolution written upon his brows and lips, and could see nothing but destruction for L. S. U. Scott struck out thirteen men and allowed but one hit.

The second game was left for Arneson, who prepared himself to pitch a good game. He struck out ten men and allowed but two hits. He knocked a two-bagger in the third inning which scored a runner. He kept a

cool head all through the game. Pete our plucky little captain, who had not been well represented on the hitting list in the four previous games, got mad and clouded it all over the field. He got three hits out of four times up.

The score ended 6 to 1.

A very sad accident happened in about the middle of the first game with L. S. U. While attempting to catch a high foul, "Dutch" struck a little boy in the head with his knee and knocked him out completely. For a few minutes it seemed as though he was dead, but he soon began to breathe, and after being taken to a hospital and receiving medical treatment he came to his senses within two hours. The Texas team presented the little boy with a baseball glove in order to show their sorrow for the said accident.

Except for this very unfortunate accident, the boys had a good time at both of the Louisiana universities.

AN EXPERT'S OPINION OF SKIN DISEASES.

A prominent, national expert on skin diseases whose name you are familiar with, says that in all his scientific experience he has never found so hard a disease to conquer as **ECZEMA**. Yet he does not hesitate to recommend **ZEMO** as a most successful remedy for the treatment of **ECZEMA**, itching skin diseases, dandruff, pimples, blackheads and all other diseases of the skin and scalp. He says that not only does its curative qualities make it popular but also the fact that it is a clean, liquid remedy for external use. A great improvement over the old style greasy salves and lotions which are not only unpleasant to use but do not destroy the germ life that causes the disease. **ZEMO** draws the germs to the surface and destroys them, leaving the skin clear and healthy. Can be used freely on infants. Mr. M. H. James will gladly supply those who call with a free sample bottle of **ZEMO** and a booklet which explains in simple language all about skin diseases and how to cure yourself at home with **Zemo**.
